

BRAND IDENTITY SYSTEM

Zentra Brand Guidelines

The complete visual and verbal reference for Zentra AI —
the done-for-you lead conversion system.

Version 1.0

2025

Zentra AI Sdn Bhd

Confidential

01 — LOGO SYSTEM

02 — CLEAR SPACE & MINIMUM SIZE

Always maintain a clear space equal to the logo's height on all four sides. Minimum rendered size: 32px height for the icon mark, 24px height for the horizontal wordmark. Never crowd the logo with other elements inside the clear space zone.

03 — COLOR PALETTE

Deep Navy

#040043

Electric Blue

#0021F3

Lavender Pearl

#C1BFE3

Primary brand.
Backgrounds, headings,
dominant surfaces.

Accent. CTAs, interactive
elements, highlights.

Secondary. Muted text on
dark, icon gradients.

Pure White

#FFFFFF

Light backgrounds.
Reversed text on dark
surfaces.

Soft Lavender

#F5F4FF

Page backgrounds, card
fills, hover states.

Brand Gradient

#0021F3 → #C1BFE3

Logo icon fill, feature
callouts, hero accents.

Data / Stats

06 — LOGO USAGE RULES

● ALWAYS DO

- Use on deep navy, electric blue, or white backgrounds
- Maintain clear space equal to logo height on all sides
- Use the full wordmark lockup on all marketing materials
- Scale proportionally — always lock the aspect ratio
- Use the icon mark alone only when brand context is established
- Apply brand gradient on the icon fill only

● NEVER DO

- Place on busy photographic or patterned backgrounds
- Distort, rotate, stretch, or skew the logo
- Change the typeface or letter-spacing of the wordmark
- Apply unapproved color combinations
- Add drop shadows, glows, outlines, or decorative effects
- Recreate the logo outside of approved source files

07 — BRAND VOICE & TONE

Direct

Lead with the outcome, not the feature. Every sentence earns its place. Cut the fluff before it ships.

Confident

Back claims with data. 78% lead decay. Sub-60 second response. Proof before promise — always.

Accessible

Precise

Non-technical business owners are the audience. Plain language wins. Local context matters — Ringgit, not dollars.

Specific numbers beat vague superlatives. Say "60 seconds" not "instantly." Say "3× more bookings" not "far more."

08 — BRAND POSITIONING

CORE POSITIONING STATEMENT

"Zentra is the done-for-you AI lead conversion system that contacts new leads in under 60 seconds, qualifies them, and books appointments — automatically."

Not an AI calling service. Not a chatbot tool. A complete lead conversion system for B2C service businesses who want automation without the build work. The key positioning shift: from "AI calling" to "lead conversion system" — this unlocks premium pricing and a distinct market position.
